

Blind Sports Nova Scotia TANDEM BIKE CLUB Come Ride with Us!

How it Works

Tandem biking (on a bicycle for 2), with the help of a pilot, makes getting active in the great outdoors with friends, family, and peers more accessible for individuals who are blind and partially sighted. A pilot rides in front, steering, shifting gears, and communicating effectively with the stoker (person riding on the back seat).

Ways to Ride with Us

Loan a Bike - We have 3 tandem bikes available for short & long-term loans to individuals who are blind or partially sighted. We provide riding and safety instruction and a roster of confident and safety-aware volunteer pilots, or engage your own. Please give us at least 72 hours notice.

Group Rides - We host group rides and attend community events, too. It's a fun way to get outdoors and get active with old and new friends and everyone's welcome!
